

**Statement In Support Of A Court-Supervised
Traffic Noise Analysis &
Development Of Noise Mitigation Budget,
And Public Participation In Choice Of Remedies**

I/We _____,
(Printed Name(s))

reside at _____, Houston TX _____,
and am/are over 18 years in age and am/are competent to make this statement.

I/We support the following

- (1) Noise Analysis.** There is an immediate need for a court-supervised, transparent analysis of the direct, cumulative, and indirect noise impacts on all private stakeholders and Memorial Park, Weiss Park, and the Arboretum, as a result of the reconstruction and reconfiguration of the IH-10/IH-610 Interchange.
- (2) Noise Mitigation Budget.** There is an immediate need for the court-supervised development of a proper noise mitigation budget based upon (a) a determination of all IH-10/610 interchange private noise beneficiaries who would benefit from noise mitigation and (b) the development of an appropriate noise mitigation budget for the parklands.
- (3) Noise Remedies.** Noise beneficiaries, public and private, must have full disclosure of remedies available to the community given the proximity of the IH-10/610W interchange to the parklands. The public must be afforded a reasonable opportunity to participate in the noise remedies that may be chosen as a result of the development of the noise mitigation budget.

Disclaimers and Representations. I understand I am not obligated to sign this Statement of Support, and I execute it of my own free will. I understand that the Plaintiffs in the case *Ware v FHWA* have asked me to execute this Statement to show stakeholder support for a court-supervised noise analysis and court-supervised development of a noise mitigation budget for all noise impacted stakeholders near the IH-10/610 Interchange reconstruction. I understand this Statement may be submitted to the Court in the aforementioned proceeding, much like TxDOT places all comments of stakeholders and written requests for information in the record for their highway projects. **I am signing this statement based upon my present understanding and knowledge of the noise issues for the referenced area. I expressly reserve the right to me to withdraw or modify my statement of support in writing at any time.**
